

**General Product Information:**

ROXUL® products are mineral wool fibre insulations made from basalt rock and slag. This combination results in a non-combustible product with a melting point of approximately 2150°F (1177°C), which gives it excellent fire resistance properties. ROXUL mineral wool is a water repellent yet vapour permeable material.

**Description & Common Applications:**

The ComfortBoard™ FS product is a semi-rigid fibre insulation board produced of rock and is ideal for firestopping in concealed spaces of residential units. This product complies with the 2006 Building Code 9.10.16.3(2).
